ENVIRONMENTAL STATEMENT

November 2017

Contents

Figure list

Non-technical summary (NTS)

Chapters

- 1 Introduction
- 2 Site description and proposed development
- 3 Environmental issues and methodology
- 4 Air quality
- 5 Community, social and economic effects
- 6 Cultural heritage
- 7 Ground conditions and the water environment
- 8 Land use and agriculture
- 9 Landscape and visual effects
- 10 Natural heritage
- 11 Noise and vibration
- 12 Traffic and transport
- 13 Waste
- 14 Summary tables

ENVIRONMENTAL STATEMENT

November 2017

Technical appendices

- A EIA scoping
- B Air quality
- C Community, social and economic effects
- D Cultural heritage
- E Ground conditions and the water environment
- F Land use and agriculture
- G Landscape and visual effects
- H Natural heritage
- I Noise and vibration
- J Traffic and transport
- K Waste

Figure list

Non-technical summary

- NTS1 Site location and application boundary
- NTS2 Sensitive receptors and key local landmarks in relation to the site
- NTS3 Land use parameter plan
- NTS4 Landscape and open space parameter plan
- NTS5 Heights parameter plan
- NTS6 Density parameter plan
- NTS7 Access and movement parameter plan
- NTS8 Developments considered in the cumulative assessment

Chapter 1: Introduction

- 1.1 Site location and application boundary

Chapter 2: Site description and proposed development

- 2.1 Sensitive receptors and key local landmarks in relation to the site
- 2.2 Land use parameter plan
- 2.3 Landscape and open space parameter plan
- 2.4 Heights parameter plan
- 2.5 Density parameter plan
- 2.6 Access and movement parameter plan
- 2.7 Indicative phasing plan

Chapter 3: Environmental issues and methodology

- 3.1 Degree of effects matrix
- 3.2 Developments considered in the cumulative assessment

Chapter 4: Air quality

- 4.1 Locations of sensitive receptors
- 4.2 Construction dust – sensitivity of the study area
- 4.3 Construction dust – dust emission magnitude
- 4.4 Construction dust – risk of effects without mitigation
- 4.5 Air quality – impact descriptors for individual receptors

Chapter 5: Community, social and economic effects

- 5.1 Receptor sensitivity (community, social and economic effects)
- 5.2 Impact magnitude (community, social and economic effects)
- 5.3 Degree of effect (community, social and economic effects)

Chapter 6: Cultural heritage

- 6.1 All known archaeology assets in the study area
- 6.2 Built heritage assets in the study area
- 6.3 Ordnance Survey first edition map dated 1886
- 6.4 Receptor importance (cultural heritage)
- 6.5 Impact magnitude (cultural heritage)
- 6.6 Degree of effect matrix (cultural heritage)
- 6.7 Results of non-intrusive archaeological surveys at the site
- 6.8 Results of intrusive archaeological trenching at the site
- 6.9 Zones of archaeological mitigation in relation to master plan proposals

Chapter 7: Ground conditions and the water environment

- 7.1 Intrusive investigations sampling locations
- 7.2 Ground conditions – the classification of risk
- 7.3 Receptor sensitivity (water environment)
- 7.4 Impact magnitude (water environment)
- 7.5 Degree of effect (water environment)

Chapter 8: Land use and agriculture

- 8.1 Receptor importance (land use and agriculture)
- 8.2 Impact magnitude (land use and agriculture)
- 8.3 Degree of effect matrix (land use and agriculture)
- 8.4 Agricultural land classification

Chapter 9: Landscape and visual effects

- 9.1 Assessment tables – Sensitivity of landscape receptor
- 9.2 Assessment tables – Magnitude of landscape change
- 9.3 Assessment tables – Significance of landscape effect
- 9.4 Assessment tables – Sensitivity of visual receptor
- 9.5 Assessment tables – Magnitude of visual change
- 9.6 Assessment tables – Significance of visual effect
- 9.7 Topography
- 9.8 Environmental designations
- 9.9 Landscape character areas – national
- 9.10 Landscape character areas – county
- 9.11 Zone of visual influence
- 9.12 Viewpoint locations
- 9.13 Viewpoint 1 – Summer and winter
- 9.14 Viewpoint 2 - Summer and winter
- 9.15 Viewpoint 3 - Summer and winter
- 9.16 Viewpoint 4 - Summer and winter
- 9.17 Viewpoint 5 - Summer and winter
- 9.18 Viewpoint 6 - Summer and winter

Chapter 10: Natural heritage

- 10.1 Receptor importance (natural heritage)
- 10.2 Impact magnitude (natural heritage)
- 10.3 Degree of effect matrix (natural heritage)
- 10.4 Designated nature conservation sites in the vicinity of the site
- 10.5 Phase 1 habitat survey

Chapter 11: Noise and vibration

- 11.1 Noise monitoring and sensitive receptor locations
- 11.2 Receptor sensitivity (noise and vibration)
- 11.3 Impact magnitude (noise and vibration)
- 11.4 Degree of effect (noise and vibration)

Chapter 12: Traffic and transport

- 12.1 Highway links considered in the study
- 12.2 Receptor sensitivity (traffic and transport)
- 12.3 Impact magnitude (traffic and transport)
- 12.4 Degree of effect (traffic and transport)

Chapter 13: Waste

No figures

Chapter 14: Summary tables
